THE REGALIA QUESTION .- The Knights Templar of the jurisdiction of Virginia are erably excited over the question of Richmond Commandery, No. 2, in common with all the commanderies of the country, I presume, some time ago received 2 courteous invitation from the Grand Commandery of the State of Louisiana to visit bet jurisdiction during the session of the friennal Conclave of the Grand Encampment of the United States at New Orleans, in December next. The Commandery named among those of the Order which reverently withere to the "clothing" worn their fathers, not in any spirit of rebellion against the Constituted authority of the Order," as they say, but because they claim that Wivilege as a right "guaranteed by the the Grand Encampment, passed Upon the receipt of the in-Vitation a correspondence ensued between M. E. Sir William B. Isaacs, grand commander of Virginia, and the Grand Commander of Louisiana, in which the "clothing" question was discussed, and Richmond Commandery, No. 2, was explicitly informed that would not be permitted to appear in New Orleans in December next in their old egalia. Hereupon the Commandery was called together to deliberate upon the turn affairs had taken, when it was resolved to dine all participation in the celebration at New Orleans, and all preparations for the pilgrimage have been discontinued. The Urisdiction of Virginia will therefore be wholly unrepresented on the occasion; for not withstanding there are two or three commanderies which have adopted the new regalia, they will most likely refuse to attend, out of respect for those which adhere to the old

FIRE IN ALEXANDRIA-THE INSURANCE. The fire last night was the burning of the junk-store of J. Dreifus & Co. building belonged to Burke & Herbert. and is insured for \$2,500 in the Al exandria Fire Insurance Company, and the same amount in the Seaboard Company, of Norfolk. The front of the lower floor was occupied by S. Burnheim as a second-hand clothing stare, the stock in which was insured for \$2,500, \$1,500 of which is in the Lynchburg Insurance Company. Most of this stock was saved. The remaining portion of the building was occupied by J. Dreifus & Co. as a junk-store, the stock in which was insured for \$1,000 in the Virginia Home Company, of Richmond, and the City Fire Company, of the same city. The adjoining building, owned and occupied by Beckham, Delaplaine & Co., was slightly injured. It is in sured for \$1,500 in the Alexandria Insurance Company, and for the same amount in the London, Liverpool and Globe Company. The stock of grain and flour it contained which was also slightly damaged, was insured for \$1,000 in the Virginia Fire and Marine Company, of Richmond, and for the same amount in the Citizens Company, of

tially injured, but is insured for \$700 in the Alexandria Company.

The amount of the insurance being, as some say, greatly in excess of the loss, suspicion this morning was directed to some of the occupants of the burnt building as the incendiaries, and Charles Goerdel, a canvasser for Dreifus & Co., and Herman Hochstetter, clerk for S. [Special telegram to the Dispatch.] Washington, November 19 .- The report of the Commissioner of Internal Revenue

shows that the total receipts from tobacco for the fiscal year which ended June 30, 1874, were \$33,242,875.62. This decrease was not un- which reaches the sum of \$10,162,954. expected, owing to the large quantities Should corresponding relative collections of tobacco put upon the market in consequence of the closing out of the bonded warehouses by the act of June 6, 1872 and the increased stimulant given for two or three months to the movement of plug tobacco by the adoption of the uniform rate of tax at twenty cents per pound by the same act. The decrease during the second quarter, amounting to \$144,607.53, (which took place during October and November, 1873,) was undoubtedly the result of the

financial disturbances of the country. The loss in collections during the two months named was \$1,440,781.73; but from the month of November, 1873, up to the present time there has been a steady increase of collections from this source over any previous corresponding period. The largest amount ever collected in any one quarter from tobacco was collected during the first quarter of the current fiscal year, which reaches the sum of \$10,162,954.35. Should corresponding relative collections continue to be made for the remaining three quarters the receipts from this source will aggregate for the current fiscal year in round

numbers \$36,000,000. Taking the amount of taxes collected as the basis for computing the product of manufactured tobacco for the year which ended June 30, 1874, the result is as follows: Tobacco of all descriptions taxed at 20 cents per pound, 104,502,548 pounds; snuff taxed at 32 cents per pound, 3,245,143 pounds. Total quantity on which tax was paid, 107,-747,691 pounds. Adding the tobacco, &c., shipped in bond for export-10,800,927 pounds-gives a total production of 1,185,-406,618 pounds for the year, being an increase over the production of the preceding

fiscal year of 2,107,684 pounds. The number of cigars, cheroots, &c., on which taxes were collected during the fiscal year which ended June 30, 1874, was 1,886.-697,498, being in excess of the number on year by 79,662,852. This number, however, does not show the actual production of the nue tax in addition to the import duty

been paid, with benefit of drawback, 36,901 moved. pounds. Total quantity exported during the year, 10,837,828 pounds. This is in excess of the total quantity exported during by the Conservatives, thus proving the rethe previous fiscal year by 727,783 pounds. From the preceding figures and comparative statements it will be seen that, while the collections from tobacco show a falling off as compared with the previous fiscal year, the actual production of manufactured tobacco was in excess of any previous year by over two millions of pounds, and the exportation to foreign countries was in excess of any 217 majority—a gain of 75 over Maynard's

million of pounds. Upon the whole, the results for the year are highly satisfactory, and indicate a prosperous condition of this great branch of national industry, and show it to be a reliable source of revenue to the National Treasury even during a season of general busi- 1865, in the Supreme Circuit Court, resulted ness depression; but to secure the best re- to-day in a verdict for the plaintiffs. "The number of grain distilleries operated in Virginia during the fiscal year ending June 30, 1874, was twenty-threee; and the number of fruit distilleries 897." TIMON.

[Associated Press telegram.] Washington, November 19 .- The report of the Commissioner of Internal Revenue shows that the total productions of manufactured tobacco during the last fiscal year was 118,548,618 pounds; the collection of tax on tobacco was \$33,242,875; total quantity of manufactured during the year 10,837,827 pounds. The actual production of manufactured tobacco exceeded that of the previous year by over 2,000,000 pounds, and the foreign exportation exceeded that of the previous year by nearly 750,000 pounds. The Commissioner urges the continuation of the leaf-tobacco clauses in the act of June 6, 1872, without amendment or alteration.

The results of this great trade, so far as its relations to the Government are concerned, have been exceedingly satisfactory. During the last fiscal year 2,880 fruit disilleries were registered and 2,841 operated: 709 distilleries other than fruit were registered and 665 operated, and there has been an increased activity in all operations relating to bonded and distilled products. The quantity produced during the year 1874 as compared with that produced during the year 1873 is relatively greater than the quantity withdrawn for all purposes during 1874 as compared with the quantity withdrawn for all purposes during 1873, leaving a balance of 15,817,709 gallons in warehouse June 30, 1873, the quantity in warehouse at that time being 12,917,462 gallons.

During the first quarter of the present year the demand for distilled spirits has been active, and the quantity withdrawn from warehouses upon payment of the tax has exceeded the quantity deposited, so that the balance remaining in warehouse September 30, 1874, has been reduced to 12,577,096 gallons, or a decrease of 3,240,613 gallons as compared with the quantity remaining in warehouse June 30, 1874.

The whole number of cases compromised during the past fiscal year was 381, and the total amount received by compromises \$62,619. During the year 5,610 suits have been commenced, 2,225 have been settled in favor of the United States Government, and missed, and there were pending on the 1st They have decided to discontinue their
